REPORT OF LIBRARIAN

Number of magazines loaned	726
Number of books loaned	5611
New books purchased	59
Books from State Aid Fund	25
Gift books received	20

Appreciation is extended to Mrs. Minnie Reade who recently presented to the Library, several new books in memory of her son, Sgt. James I. Reade. This seems a fitting tribute to Jimmie, who enjoyed good reading and who borrowed books from the Library regularly.

With the death of Mr. Mc Curdy, the Library has lost a faithful and efficient member of its Board of Trustees. He gave freely of his time and energy and will be greatly missed.

Some fine contributions have been made to the Library the past year including books, magazines and a complete set of the Plymouth Record for 1945 to be kept for reference purposes. Such gifts are a great help and much appreciated.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Wentworth School Board:

My third annual report submitted herewith contains the customary statistics and general school information for consideration by you and the people of Wentworth. Answers to questions and specific information not found in this report will be gladly given on request.

With regret the resignation of Miss. Carol A. Lavoie was accepted during the summer. She had given very satisfactory service both in the Atwell Hill School and at the Village. She is now teaching in Warren, N. H. Mrs. Charlotte F. Woodward of Orford, N. H. was elected to fill the vacancy in the primary room.

From time to time parents want information about and explanation of school practices.

The teachers and the superintendent will be glad to discuss such matters with parents whenever they wish to do so. We especially recommend that school patrons get their information directly from those who are best qualified to give it rather than to depend on reports from sources that may not always be strictly accurate.

It is gratifying to know that textbooks and other materials of instruction provided for our children are as modern and of equal excellence as they would use in a city school system. Parents who have moved into towns in Union 48 have been pleasantly surprised to find that their children continued to use the same textbooks given them in supposedly more approved systems. This has not been accomplished without considerable expense but the money thus spent is a good investment. Our children deserve the best we can give them.

The next extensive change should be made in geographies. The books now favored will give a complete geography course in grades four through seven and leave grade eight free for work in science. We hope this change can be made in September.

The School Board is to be commended for improvements at the Village since last June. Probably too many people overlook the great influence school surroundings have on the later lives of pupils. Their ideas of order, neatness and care of property will reflect the examples set before them during their school days. Since school days are the formative period of life our children are entitled to pleasant cheerful surroundings and the most helpful examples.

My conclusion is an expression of appreciation to the School Board and townspeople for friendly cooperation in the past year.

Respectfully submitted,

Arthur S. Rollins

Figures in the first six columns above are taken from General Statistics for the school years indicated During the period from September, 1939 to June, 1945 Wentworth school enrollment declined slightly more than one half. This may have been partly due to population changes as a result of war emergency conditions in industry. It will be interesting to note what changes are brought about in the next year or two as people begin again to move from urban to rural communities.
